Hi Rose,

I am responding to your email about holding events with the Women's group for undergraduate Philosophy majors. I'd love to meet more folks in the major and with similar interests as me, and I'd absolutely attend an event like this. Also, when you were my TA (my freshman year, I believe?), a conversation we had convinced me to add Philosophy as a major along with my originally declared major, Psychology. I thought I'd let you know. Thank you for being a phenomenal TA. I hope to see you soon!
